As we move along our Spiritual path, we are always questioning if we are on the right course. These classes are designed to take you the next step towards knowing your true intuitive power of mediumship and developing a trust and comfort with it, through innovative and mystical methods of discernment.

This series of classes will help those beginning their quest, those further along their path, intuitives of all disciplines, as well as those practicing at more advanced levels. All classes will be taught in easy to understand concepts and language. The techniques will bring you into a personal as well as a truly intimate connection to the "Spiritual Power" of self and the purpose you are meant for with that power.

A sequence of ideas and exercises will be taught on how "Spiritual Intuition" has progressed into usage in the Everyday Mind, and how we can incorporate that Intuition into a message for others and co-importantly for ourselves in daily use for guidance and help in all of our affairs.

Reverend Stephen G. Adkins has studied and performed public demonstrations In the United Kingdom, as well as through out the USA and will be bringing 15 years of experience with these methods and techniques to you in this forum. Reverend Adkins holds a Class "B" membership in the SNU and a membership in the SCSCMA. (Southern Cassadaga Spiritualist Camp) Steve is a certified medium, healer and an ordained minister of the SCSCMA.

His innovative concepts upon spiritual psychology and parallel consciousness have established him as an exciting tutor of seminars, which are always delivered in depth with stimulus, respect and humor.
